## **THE HOUSE BUILDING PROJECT**

Each year students involved in Career and Technical Education programs in Henrico County are provided an opportunity to apply what they learn in the classroom in a real-world setting. They build a house! Through the Henrico County Vocational/Technical Education Foundation's House Building Project (HBP) these students gain valuable experience that will help them make the transition from the classroom to a rewarding career in the housing industry.

## **OUR MISSION**

The mission of the House Building Project is to provide real-world, hands-on experience to students involved in Career and Technical Education programs in Henrico County Public Schools.

## **A LITTLE HISTORY**

The House Building Project began in 1986 with the formation of the Henrico County Vocational/Technical Education Foundation. The primary purpose of the Foundation is to support the house building project. Students are currently finishing our 19<sup>th</sup> house thanks to the Foundation.

## **THE FOUNDATION**

The Henrico County Vocational/Technical Education Foundation, Inc. is a volunteer, non-profit 501-C3 corporation whose purpose is to provide support for Career and Technical Education educational programs in Henrico County. It is only through the guidance and leadership provided by the Foundation that we are able to carry out our project mission.

## **OUR HOUSE**

House plans conform to all building codes and subdivision requirements. A typical HBP house includes an open floor plan design adapting to current trends in the market. The building is turn-key upon completion, and grounds are landscaped by our students in the ACE Center Landscaping course.
